

20% OFF HOUSEPLANTS

SAVVY SUCCULENTS DESIGNED TO SURVIVE

Succulents have sparked a new trend with their variety of textures, leaf shapes and colors. These living sculptures have unique characteristics, are easy to grow, and are drought tolerant - all of which really appeal to green gardeners.

ECO-FRIENDLY HOUSEPLANTS GROW FRESH AIR

These plants are an easy way to create a clean and inviting atmosphere. Indoor air pollution is a common problem in today's homes. As indoor plants breathe, they take in the pollutants, filtering it through their roots, leaving a clean and healthy living space!
